

Gingival® gel for gums massage

1 g of the gel contains: Chamomile liquid extract 90 mg, Tormentil tincture 30 mg, Peppermint essential oil 6 mg.

Ingredients: Aqua, Chamomilla Recutita Flower Extract, Propylene Glycol, Carbomer, Alcohol, Potentilla Erecta Extract, Sodium Hydroxide, Mentha Piperita Oil, Sodium Benzoate, Disodium EDTA.

Action

The action of GINGIVAL® gel is based on the well-known effect of its herbal ingredients: Chamomile flower (*Chamomillae flos*) liquid extract, Tormentil rootstock (*Tormentillae rhyzoma*) tincture and Peppermint leaf (*Menthae piperitae folium*) oil.

GINGIVAL® gel is recommended in the maintenance and support of results achieved by a dentist using a standard (conservative) dental treatment in patients with the marked signs of gums inflammation caused by gingivitis, periodontal disease, build-up of tartar and other.

Since GINGIVAL® gel promotes healthy gums, it is also suitable for use after other dental procedures, such as:

- During and after delivery of removeable dental restorations – complete and partial dentures
- After delivery of fixed prosthetic restorations – bridges and crowns
- After teeth preparation for fixed prosthetic restorations.

Instruction for use

Before each application of GINGIVAL® gel, brush your teeth thoroughly using toothpaste. Squeeze out about 0.5 cm of gel onto your fingertip and apply gently, using circular motions, onto the outer gum surface, massaging the gums gently. Repeat the same procedure on the inner gum surface. Do not eat or drink for one hour after the gel application to allow the gel to produce an effect. Apply GINGIVAL® gel two or three times daily for at least 7 days.

Note

Close the tube immediately after use.

Precautions

GINGIVAL® gel should not be used by persons allergic to any of the ingredients of the product. Keep out of the reach of children.

Storage

Store below 25 °C in the original package.

Shelf life

Indicated on the package
