

Leaflet for Flonivin Immuno Booster Capsules

## Flonivin® Immuno Booster Capsules

### Food supplement

**Flonivin® Immuno Booster** is a food supplement with 5 billion beneficial bacteria (*Lactobacillus acidophilus*, *Bifidobacterium bifidum*), vitamins (A, B6, B12, C and D) and zinc, formulated to boost the immune system. It is a nutritionally rich formula recommended as a food supplement for normal functioning of the immune system.

Vitamins A, D, B6, B12 and C, along with zinc, contribute to normal functioning of the immune system.

Vitamin D and zinc are involved in the cell division process.

Vitamins B6, B12 and C help to maintain normal energy metabolism, reduce fatigue and exhaustion, and maintain normal functioning of the nervous system and normal psychological functioning.

Vitamin B12 contributes to normal production of red blood cells.

Vitamin C promotes iron absorption and helps to maintain normal function of the immune system during and after vigorous exercise.

Vitamin C and zinc help to protect the cells from oxidative stress.

Zinc contributes to normal metabolism of macronutrients and vitamin A.

Active ingredient composition	1 capsule (0.483 g)	% NRV*	100.0 g
Lyophilised culture of beneficial bacteria, of which: <i>Lactobacillus acidophilus</i> La-14® and <i>Bifidobacterium longum</i> BI-06™	5x10 <sup>9</sup> CFU**	-	1 x 10 <sup>12</sup> CFU**
