

Urocoli®, Powder for Oral Use, draft label

Urocoli®, Powder for Oral Use

Dietary supplement – Food for special medical purpose with sweetener

Suitable for vegetarian and vegan diets

Urocoli®, Powder for Oral Use is dietary supplement- food for special medical purpose for the nutritional needs of people with urinary tract infection, caused by the bacteria Escherichia coli. Urocoli®, powder for oral use is intended for feeding adults and children over 3 years of age with acute and chronic cystitis and infection of the upper parts of the urinary tract. The product contains D-mannose, 3 billion beneficial bacteria (*Lactobacillus acidophilus*, *Lactobacillus rhamnosus* and *Lactobacillus paracasei*), fruit juice, zinc and vitamin C.

D-mannose is a natural, simple sugar that prevents bacterias from sticking to the urinary walls and enables its more rapid and efficient elimination from the urinary tract.

Beneficial bacteria contribute to preventing the creation of a favorable environment for the development of other bacteria that cause infections. Urocoli®, powder for oral use is food for special medical purposes as a supplement to antibiotic therapy, with the aim of preventing recurrent infections of the urogenital tract.

Active ingredient composition	1 sachet	% NRV*	100 g
D-mannose	2 g	-	40 g
Lyophilised culture of the beneficial organisms: <i>Lactobacillus acidophilus</i> La-14® Synbio: <i>L. rhamnosus</i> IMC 501 (DSM 16104) <i>L. paracasei</i> IMC 502 (DSM 16105)	3x10 ⁹ cfu**	-	60 x 10 ⁹ cfu**
